SOLID Principles

GoF Design Patterns

Agile Methodology

Problem-solving

*I am a three years experienced software engineer motivated to relocate and to start a new position.*

*I mainly worked on PHP environments, but I have a great interest in web development in general. I am eager to learn and I would like to be part of a positive and creative team.*

### Software Engineer (November 2018 - February 2020)

- Inasoft - [inasoft.fr](http://inasoft.fr)

*Working in a team of 6 developers on a SaaS recruitment software (Gestmax) designed by Inasoft.*

*Missions :*

- Adding features or REST APIs using Zend Framework (PHP)
- Building front offices using HTML, SCSS, JQuery and Smarty
- Preparing MySQL databases
- Deploying features using Git, Beanstalk
- Following Agile (SCRUM) methodology
- Working with Docker and Ubuntu servers (Linux)

### Full-Stack Developer (January - November 2018)

- Freelance - [karimmorel.fr](http://karimmorel.fr)

*Developing websites or giving support on existing projects using Symfony or Wordpress (PHP).*

- Intranet for the Rhône's Water Agency
- Wordpress Plugins for the Lyon Mermoz Clinic's website
- [souvenirsderoute.fr](http://souvenirsderoute.fr)

### Software Engineer (June - December 2017)

- County council of Lyon - [mdmph.rhone.fr](http://mdmph.rhone.fr)

*Developing, with 2 other developers, a website and an intranet for helping people with disabilities to have welfare.*

*Missions :*

- Developing an intranet using Symfony 3.4, Twig, JQuery and SCSS
